Summary

I'm a passionate software developer with a strong focus on Back-End development since 2022. I aim to build impactful projects, optimize system performance, and drive technological advancements while continuously learning and growing in the field.

Work Experience

MS LLC

Software Developer, Hybrid, Full-time

Baku, Azerbaijan

Feb 2024 – Present

- **Sensible Accounting Software:**

- Developed an **automated online accounting system** tailored for sole proprietors in the service industry.
- Built a **C# API** for backend processing, efficiently handling **data retrieval, storage, and accounting calculations**.
- Designed and managed **databases with stored procedures**, optimizing query execution and data integrity.
- Implemented **JavaScript-based accounting calculations and algorithms** for accurate financial tracking.
- Utilized **jQuery** to enhance UI interactivity and streamline user experience.

- **Kral Inshaat Construction Store Website:**

- Developed a **comprehensive e-commerce platform** for selling construction materials and services.
- Utilized **ASP.NET MVC** architecture to build a robust and scalable web application.
- Integrated a **secure banking system** for online transactions, ensuring seamless payment processing.
- Created a **Telegram bot** to automate order tracking and customer interaction.
- Designed an **advanced Admin Control Panel** with real-time analytics and inventory management.
- Implemented JavaScript and AJAX for an intuitive and responsive user interface.

- **Master School Reporting Website**

- Designed a **web-based education management system** for overseeing school operations.
- Developed features for **student and instructor management, attendance tracking, and course administration**.
- Implemented an **invoice processing system** with import/export capabilities for financial transactions.
- Built a **study group management system**, enabling better control over classes and academic progress.
- Created a **user-friendly and responsive interface** for smooth navigation and administration.

MS LLC

Full Stack Development Mentor, On-site, Part-time

Baku, Azerbaijan

Feb 2023 – Jul 2024

- **Mentoring Process:**

- Guided aspiring developers in mastering **front-end and back-end technologies**.
- Provided **hands-on training** in C#, JavaScript, ASP.NET, and database management.

- Taught **industry best practices**, including **coding standards**, **debugging techniques**, and **project architecture**.
- Conducted **live coding sessions** to demonstrate real-world application development.
- Helped students **understand complex algorithms** and their real-life implementations.
- Assisted students in building and deploying **full-stack applications**.

MoonLin (ToorLin) Startup

Front - End Developer, Remote, Part-time

Baku, Azerbaijan

Oct 2023 – Jul 2024

- **ToorLin Website:**
 - Developed a **gaming platform** designed to connect players from various gaming backgrounds.
 - Built an **interactive front-end interface** using JavaScript and modern web technologies.
 - Implemented a **real-time chatting system** for players to communicate and form gaming communities.
 - Designed features for **tournament participation, ranking systems, and player engagement**.
 - Created a **reward system** to incentivize user activity and enhance the gaming experience.
 - Ensured a **seamless user experience** through performance optimizations and responsive UI design.
